

As the cases of COVID-19 increase in Manitoba, Canada, and around the world; the government continues to update the general public on changes in their recommendations to help “flatten the curve” of the spread of this virus.

This is a serious situation and Lindenwood has continued to stay updated with the latest information from Manitoba Health and Health Canada and has taken steps to help maintain the safety and well-being of our residents and staff.

Due to the vulnerable demographic we serve, who are higher-risk for serious COVID-19 symptoms, we have made considerable changes to our life here at Lindenwood Manor and Lindenwood Terrace.

As of Friday March 20th, **we are restricting all non-essential visitors until further notice.** Essential visitors are those who provide care for a resident or bring them necessary supplies. Please note that supplies may be dropped off at our front desk and our staff will deliver. We are asking that all visitors providing care remain in the suite with the resident. **WE WANT TO STRESS THAT THIS IS VERY IMPORTANT TO HELP US KEEP THIS VIRUS FROM ENTERING OUR BUILDING. ALL VISITORS AS OF FRIDAY EVENING WILL HAVE TO USE THE FRONT DOORS.**

Please click on the “COVID – 19 memo to residents March 18, 2020”, for more details on our restrictions and other changes and cancellations to our programming, dining and visitations.

Thank you for your understanding and patience during this difficult time.
